Year built	**1994**

Description

Between the location and the updates, this one does a lot of the convincing on its own. Minutes from Black Hills State University, it already carries real investment potential, and that's before you even step through the door. Inside, 1,585 square feet holds 4 bedrooms and 2 fully updated bathrooms, finished with fresh paint throughout and brand new carpet in every bedroom, plus vaulted ceilings that make the whole home feel even more open. The kitchen has real room to cook and gather in, complete with modern appliances already included, and the primary bedroom's walk-in closet solves the storage question before it's even asked. Out front, a deck sets the tone for slow mornings and quiet evenings, and two storage sheds keep tools, hobbies, and seasonal gear organized without crowding the house. As a manufactured home, it delivers all of this at a level of value that's hard to match. Schedule your private showing today before someone else calls it home.
