Subdivision	**OTHER**
School District	**Spearfish**

Description

Built by High Plains Construction in 2019 and fully finished at 2,480 square feet, this ranch style home was made for mornings like this. Step inside and notice the gas fireplace and granite counters throughout, the kind of finish quality usually reserved for upgrade packages, not the standard build. You'll feel the difference the moment you walk in. With 4 bedrooms and 3 baths, there's room for your life to spread out. The main level holds your primary suite with its own walk-in closet, plus a second bedroom close by. The fully finished basement adds two more bedrooms and an expansive family room, the kind of space where holidays fill every corner, or where you close the door and get away from it all. When the day winds down, the patio and covered porch are waiting, built for slow mornings and long evenings. Picture the camper loaded on the dedicated pad beside the garage, ready for the next weekend getaway. This home is built for the life you're about to start living in it.
