Description

Stop by and check out this split level on a corner lot on the West Side. It's just a minute or two from Meadowbrook Golf Club, Canyon Lake Park, Sioux Park and Shopping & Dining at Baken Park. That's a lot of "Parks." Take a walk or ride on the Bike Path that passes closeby or head to DQ or the local pizza shop around the corner. This home has endless potential with yard space between the house and the garage and a larger yard space on the other side of the garage, you have entertainment options and privacy on the covered porch. The basement and balcony walk out to the two car garage where there's room to work on projects, store your Holiday decorations and even park a boat or RV outside next to the driveway. As you walk through the house, remember, the folks living there are prepping for their move, but imagine the possibilities for how you can make it your own Canyon Lake Area retreat. There are so many possibilities with this house for the new owner to come in and enjoy. Listed by Ryan Hall West River Realty
