Description

Are you looking for luxury, privacy and easy accessibility to healthcare, amenities, and town? This home is the one! Situated on the top of a private knoll, this 3700+ sq/ft home offers just that, and more. Meander up the long, private drive and you'll find an oversized 3-car, heated garage attached to a 5 bed, 3.5 bath home with sweeping views of Rapid City from the front porch and tranquility at it's finest on your own 2.3 private acres overlooking lawnscape, woodland, and abundant wildlife. The home was crafted with function & elegance in mind- with beautiful tile floors throughout much of the main level, large vaulted and trayed ceilings, extra-tall 8 ft doors, and many custom finishes that give it a grand Tuscan Villa feel throughout. Enjoy the primary suite with excessive closet space and gorgeous en-suite bathroom with dual beaten copper sink basins and a large walk-in tile shower. The main level also hosts the kitchen, dining room, laundry, living room, two additional bedrooms, a powder room and full bathroom, and access to the large Trex deck off the back. Downstairs you'll find an extra-large family room/game room with plenty of space for your exercise equipment, a full wet-bar, a private home-theater room with it's own cozy fireplace, two ample sized bedrooms with a full bathroom in-between and a custom wine cellar with it's own adjacent tasting room. This massive lower level also offers a second laundry room and a walk out covered patio with a brand new saltwater hot tub to take in the breathtaking views. Don't miss the gorgeous custom built shed off the

back that could be converted to a workspace, green-house or private office. Listed by Stephanie Blake, Coldwell Banker Black Hills Legacy (208) 559-3867.
