Description

Space, views, and room for everything you own. This 4 bed, 3 bath ranch-style home with a walkout basement sits on a 0.46 acre lot lined with mature trees, with open prairie views and plenty of room to spread out. You get a 2-car heated garage plus an oversized steel carport with space for a truck, trailer, boat, or extra vehicles. Inside, vaulted ceilings and an open layout connect the living room, dining area, and kitchen. The kitchen has stainless appliances, a breakfast bar, and a slider to the deck, which is perfect for grilling and morning coffee. The primary suite has a private bath and its own walkout to a second deck. Two more bedrooms complete the main level. The walkout basement adds a huge living area with a gas fireplace and a slider to the covered patio, plus a fourth bedroom. Use it as a family room, home gym, game room, or guest space. Gas furnace, central A/C, and an electric water heater keep things comfortable year-round, and a radon mitigation system is already in place.
