Description

Rare Architectural Gem with Panoramic Canyon Views in the Heart of Rapid City! Hidden away in the middle of town, this unique, one-owner legacy home has been cherished for nearly 50 years. From the moment you step inside, you will be captivated by the window-filled living room featuring an artistic, centerpiece wood-burning fireplace. The main floor offers a seamless flow from the formal dining room and kitchen to a second living area, alongside a private office complete with custom built-ins and a built-in bar (easily converting into a 5th bedroom). Upstairs, the primary suite features a private bath and double doors opening to a dramatic loft overlooking the main living area, flanked by two additional view-facing bedrooms. The walk-out lower level adds an expansive family room with a gas fireplace. Outside, experience a tiered entertainer's paradise: a multi-level deck system perched above the canyon, a secluded hot tub, and a west-side patio with a beautiful pergola.
