Description

Room to spread out, space to enjoy the outdoors, and a few fun extras you don't find every day! This 3-bedroom, 2-bath home sits on a private 1.76-acre lot right inside city limits and offers 1,340 sq. ft. of comfortable single-level living. Step inside to a bright, welcoming living room that flows easily into the kitchen and dining area. The kitchen is ready for everything from everyday meals to hosting friends, with plenty of cabinet and counter space, a movable center island, and all appliances included. The primary bedroom is tucked away at the back of the home and features a walk-in closet and its own bathroom, while two additional bedrooms and a full bath round out the space. Out back, there's even more to enjoy! Take in the hillside views from the large decks, spend time in the fenced garden area, or make the most of the expansive yard. AND don't overlook the heated and cooled she-shed with electricity! Whether you need a hobby space, home office, creative hideaway, or something else entirely, it's ready for your ideas. A detached 2-car garage, 2-stall lean-to, and large paved parking area give you plenty of room for vehicles, toys, and all the extras. Plus, Springbrook Acres has a community wilderness area with natural springs and hiking trails nearby. With this much space, so many possibilities, and the convenience of being right in town, there's a lot to love about this property!
