Description

Picture yourself on 2.01 acres of rolling Black Hills land, part wooded and beautifully elevated, with views that remind you every single day why you chose to build here. This parcel within a sought-after, covenant-protected community gives you something increasingly rare: the space to build the life you have designed, in a neighborhood that was built to last. Electricity is at the lot, city water is connected, and MDU gas is available to the property. Paved roads bring you in from the city with ease. Schedule your own private tour in this lot today.
